NOTICE

The Castell interlocking system is provided to safeguard your employees and protect your equipment and property by permitting operation only in a predetermined sequence. A duplicate key, bolt or master key provides a means to defeat the Castell interlock system by bypassing the sequential operation, thereby exposing your employees, equipment and property to potential hazards. Castell cannot analyze or evaluate your need for duplicate keys, bolts or master keys, although we recognize that in practice our customers may have legitimate reasons for by-passing the sequential interlock system under careful managerial supervision. Consequently, any duplicate key, bolt or master key, must be controlled by, and accessible only to, responsible and authorized persons.

Accordingly, in requesting and accepting from Castell a duplicate key, bolt or master key, you hereby agree to the following:

Purchaser hereby agrees to defend, indemnify and hold harmless Castell Interlocks Inc., its officers, employees, agents and those in interest with it, against any and all claims, demands or suits, and all loss or damage to property, including loss of use thereof, or injury including death, sustained by any person arising out of use of any duplicate key provided hereunder.

Agreed
