## ENVIRONMENTAL POLICY

Castell Safety International recognises that as a part of the local community it has an impact on the local environment and more widely by bringing in raw materials and energy, distributing our products and discharging emissions and wastes.

Therefore, Castell is committed to :

Review of our energy usage, maintaining renewable electricity energy.

Further reducing our Carbon Footprint, including LED lighting, Solar panel installations, reducing gas usage.

Monitoring and measuring our waste packaging in line with UK regulations.

Maintaining our no disposable plastic cups policy on site.

Continuing to recycle our scrap metal.

Maintaining and monitoring our water use and water quality.

Developing a management approach with the introduction of ISO 14001 standards.

Maintaining solar panels to maximise self generated electricity.

Maintaining the premises to the highest practical standards through good facilities management.

Ensuring we are not in breach of environmental legislation.

Providing information by communicating to employees to enable the proper operation of processes with minimal effect to man and the environment.

Castell's overall objective is to develop our business with full regard to the environment, taking into account the views of all affected parties through risk control.
